Lat: _____ Long: _____

List the number of adult monarchs seen each day in which seeing a monarch was a possibility.

- If you were outdoors and saw none, record a zero
- If there was no opportunity to make any observation leave that date record blank.
- When monarchs can't be active due to weather conditions (e.g. temps below 60, extreme overcast, heavy rainfall) a W (for weather) should be entered.

North Period 1: April 1 – June 20
 North Period 2: July 15 - August 20
